

Note: Accurate visual simulation if printed in 11x17 format and held 30 inches away from face

Photographic Simulation Viewing Position 1

Map Scale 1:400,000

Legend

- Photograph Cone of Vision
- Property Being Optioned
- Proposed Project Boundary
- Proposed Tower Locations

Photograph Information

- Date of Photograph: 5/19/2010
- Time of Photograph: 1:48 PM
- Weather Condition: Partly Sunny
- Viewing Direction: Southwest
- Distance to Nearest Proposed Tower in View: 19.5 miles
- Height of Proposed Towers in View: 656 ft
- Latitude: 37° 58' 21.540" N
- Longitude: 105° 40' 5.540" W
- Photo Location: Stupa Observatory Point, adjacent to Cam Baca Grande, approximately 2 miles south of Crestone
